

MAYSL Clinic Soccer Program

Important Notice for Parents & Coaches

Dear Clinic Soccer Parents and Coaches,

Our Clinic Soccer Program is designed to introduce our littlest players to the game of soccer and, most importantly, to inspire a love of soccer in a safe, supportive, and positive environment.

To help us provide the best possible experience for our players, we ask that everyone follow the District League rules and game-day requirements below. These rules are in place for player safety and insurance purposes, and we need everyone's help in following them to create a safe, positive, and player-focused experience.

Field & Game-Day Rules

- **One coach per team is permitted on the field during game times.**
- **Parents and spectators are not permitted on the field at any time.**
- Parents and spectators should remain in the designated spectator areas and allow coaches to support the players on the field.

Player Safety Requirements

- **No jewelry of any kind is allowed.** This includes earrings, necklaces, bracelets, watches, rings, and any other jewelry.
- Players must wear **closed-toe shoes** appropriate for soccer.
- **Shin guards are required** for all players.

Supporting Our Youngest Players

Our youngest players may not always be ready to play in the moment and that is okay! The goal of Clinic Soccer is to help children have fun, build confidence, and develop a positive relationship with the game.

We encourage coaches to:

- Be flexible and patient with players.
- Collaborate with other coaches when needed.
- **Share players between teams when needed to help balance teams during games.**
- Use opportunities to get more players involved and provide additional game play experiences.

Pinnies are available for teams that share players so that every player can feel like part of the team they are playing with.

We appreciate our coaches working together to make sure every child has opportunities to participate, learn, and enjoy the game.

Thank You for Your Support

Thank you to all of our parents, coaches, and volunteers for helping us make Clinic Soccer a **safe, welcoming, and positive player-focused experience.**

By working together and following these guidelines, we can give our youngest players the opportunity to discover the joy of soccer in an environment where they feel supported, included, and encouraged.
